If answered YES to the previous question:

What made your team successful?
Working as a group and implementing our ideas
cohesiveness
working together
Utilizing professors and peers, using each members' strengths, and communication
we were able to work together to come to a common goal which was solving the puzzle. Every team member contributed equally and we all respected each other opinions and whatever suggestions that was shared.
team work, good dynamic
We all worked hard and allowed each to use their own strengths in order to complete the activity successfully.
communication
Working together
we respected each other and communicated ideas
Collaboration, everyone was listening to each other's comments so that we had a better opportunity to put the pieces together.
Our ability to utilize each of our strengths to work together and listen to each other's ideas.
My team was succesful because everyone took a part in the puzzle and all bounced ideas off each other.
Positive attitudes & willingness to work together
I think we were open to everyone's ideas while trying to figure out the puzzle. Everyone had a role at some point in the puzzle solving process. I think we communicated effectively and handled the stress of the time crunch appropriately.
bouncing ideas off each other and accepting all ideas as possibilities
teamwork
Team work
teamwork and by utilizing everyone's strengths in the team
Great teamwork, patience, communication
me
We all helped equally and took all of our ideas into account. Everyone helped with a different aspect.
working together
Working together, each giving our opinions and respecting them. Listening to when someone has a suggestion and also respecting each other's opinion.
To be successful my team work diligently and communicated our ideas to one another.

Thinking outside of the box, some of my team members did not contribute to the puzzle as much as others did. We were able to bounce ideas off of each other and didn't tear each others thoughts or ideas down.

The ability to think outside of the box

Teamwork

Working together and giving each member of the team a shot on each part of the puzzle to see if they had a different perspective on it.

Working as a team to solve the problem given.

Cooperative working together

Everyone giving their input, even if it sounded like a very "creative" idea that didn't make sense. We still took everything into account and worked our way through it to complete the puzzle.

Respectful acceptance of expressing ideas and effective communication

Speaking up when you have an idea

We all worked together to figure out the clues in the puzzle.

Sharing ideas and communicating

Working together to solve the clues being discovered

We talked out all correct answers, and everyones ideas seriously.

Yes

We worked together well.

We all added different points of view to the puzzle that others were not thinking of.

We all worked together delegating tasks and integrating each others ideas.

Each finding different clues

We worked well together. We respected each others' ideas.

Dr. Trovinger. Jokes aside, we were able to use our strengths and weaknesses to figure out the code.

Working together

Working together and individual knowledge

Teamwork makes the dream work!

We bounced ideas off of each other to come to a conclusion.

All of us using our different strengths and creativity

We listen, strive, and respect.

Team work

We worked together

We all shared our ideas and combined them to come up with the right answer.
everybody contributing ideas helped us solve the puzzle

Femi
teamwork

We listened to each other's ideas.
teamwork
our attitudes
Teamwork

we shared ideas, and we built our answers around others ideas

WE put our brains together and really tried to bounce ideas off of one another.

Synergetic
We worked together and listened to brainstorming ideas
collaboration/ team work

Teamwork and different ideas

Teamwork

working together and putting clues together

we balled out

Q4 - If answered NO to the previous question:

Why was your team unsuccessful?

If answered NO to the previous question:

Why was your team unsuccessful?

N/A

We almost did

N/A

We just couldn't figure it out

Way too much confidence

we were unable to connect the information as a combination. It was kinda easy but we did not think about every single connection that might occur.

Because we received more than one hints and the role of the game not to receive more than one hints

We were very unsure with what to do with each step, but boldly walked into each failure, with pride. We also didn't empty the packet out completely.

Out of time.

We were unable to figure out what we needed to do past the green 7.

one of the information was missing-puzzle

n/a

We didn't get to the correct answer.

the puzzle wasn't easy to find and we were running out of ideas but I feel good because we got half the puzzle figured out

We got distracted by the irrelevant materials and did not come up with the correct results.

We almost finished the activity but time was not enough.

we were not able to completed on time. Dr.trovinger gave us clue.

We didn't find the picture of Melissa until way later. It was left in the envelope.

Forgot to pull a piece of puzzle from the packet till the end.

We were focusing on one part of the puzzle for too long.

n/a

we focused too much in one puzzle we couldnt figure out and this didnt allow us to move on to another when we could

also me

The provided clues were not clear

We overthought it.
There were too many cities and counties on the map that were also on the word search. Not just the 4. We needed more time, we almost had the answer but were told that the competition was over and we were out of time.

We did not figure out the last part of the puzzle
We did not take out all stuff from folder, so miss some clue.
we got stumped at the Green 7
We failed to identify one of the major clue in a timely fashion
Ran out of time.
the last puzzle was extremely difficult and we were unable to solve the last part
We missed the puzzle in the envelope and found out too late about it
NA
We had one more step, just ran out of time
We were thinking deeper into the puzzle and made it difficult to figure out the clues.
We ran out of time and we were close, but could not get the last piece of the puzzle
We were very close, we just could not find the final word on the crossword puzzle to hit orange county and then count the number of oranges
We didn't figure out the correlation between the papers and clues given to us to find the answer
n/a
Spent most of the time on the word search.
N/A
We did not connect the dots on the map and the crossword puzzle.
n/a
N/A
it took us a while to find the cities on the crossword puzzle
We did not solve the puzzle completely.
N/A
It’s too early in the morning.
We couldn’t figure out the clues. We got bogged down in the small details.
Couldn’t figure the clues out fast enough
We forgot to dump out a major piece of the puzzle
Focused too much on one aspect and ignored the rest

I used my communication skills to talk with my team as well as strategizing on the task at hand. I used self assurance keeping the team going.

I found sailboat.

We had a well rounded list of strengths. I was able to communicate everyone's thoughts. Since I am an achiever, I strived to compete against the other groups to do our best. I also was strategic about helping solve the puzzle.

I remained calm when the team members were getting a little frustrated when we were trying to solve the puzzle. Positivity, kept motivating my team and encouraging everyone and making sure we all on track and on time.

I used intellect to way overthink the puzzle. We did manage to realize that there was some kind of code with the green 7, but that was as far as we got. I used input and developer to take in everyone's thoughts and mull them over.

We used our different skills to solve the multiple puzzles.

Did the best that we could do.

I used my strengths by talking to my group to see what everyone's ideas were but also tried to keep us on track and not stray away from the main goal of the activity.

I used the discipline to sit down and make us critical think on how all of these pieces go together.

I didn't get overwhelmed doing this activity. I used my top strength of restorative to approach the problem systematically and not be overwhelmed with it.

I used my strengths by contributing and helping direct us to work together as a team.

I participate in team activity, and try my best to solve it.

We each were able to think of new ways to solve the puzzle and never gave up. We all worked well together which is probably because we almost all have harmony.

We stayed focus on trying to complete the riddle and worked together to help each other in areas one was struggling in.

I empathized with the others as we were stumped in the middle of the puzzle.

I used my analytical skills to decode some of the clues.

I used my strengths to communicate with team members and come up with ideas for completing the activity. We were able to brainstorm and work as a team with little conflict.

Harmony was used by keeping conflicts resolved throughout and trying to maintain a calm manner.

Utilizing each group members strengths to complete the task given.

I was able to solve the first clue extremely quickly which helped us move ahead quickly. Then it was all down hill from there.
Postivity and trusting team helped us to get it done
Just by including everyone and listening to everyone's input. Worked out great on all our parts in the end.
