Karyotype on fixed cells of P4 Moffat, Clone 4

Laboratory No: O16/0422

Date of Receipt: 17/11/2016
Date of Report: 29/11/2016
Analysed By: Rachel Newby
Checked By: Richard Nash

Referral Details: Stem cells for karyotyping

Karyotype: 46,XY

Chromosome analysis of the fixed cell suspension from this stem cell line (Moffat, Clone 4, P4) has shown an apparently normal male karyotype in 20 cells examined.

The preparations obtained from this sample were of sufficient quality to detect numerical and large structural abnormalities.
